## Description ×

Turkish coffee isn't about caffeine, perfect pours, or drinking a mammoth venti alone at your keyboard. Turkish coffee is an ancient culinary art and a social ritual. It's about being, tasting, and sharing. At Saki, we blend that art with technology. Our machine preserves the rich flavor, fine texture, and thick foam that defines Turkish coffee, and we figure the time you save in the making you can devote to sipping and chatting or just taking a moment to slow down.

## Description

Smart. Healthy. Good-looking. With its set-it-and-forget-it automatic timer, high-performance, powerful motor, and an easy-to-read LCD display for program settings, you can save the taste, texture, and nutrition and jettison the junk. You can fry, bake, grill, and roast like a pro, using just one versatile appliance and virtually no oil. Banish the bad fats and high calories while saving good taste, perfect food textures, and precious time.

## Description

Add your ingredients. Set a timer. Push the button. It's effortless. Prep is a cinch. Cleaning is a cinch. Our breadmaker lets you avoid the countertop chaos of mixing, kneading, rising, and cleaning. No more alternating between physical labor and boredom. Time is short. Work less. Wait less. Pay less. Spend more time savoring fresh, healthy bread than you do making it.

## Details

## FROM AMATEUR TO PRO IN ONE POUR

Using our pour over carafe, even those with no experience or expertise can make barista-quality coffee with little effort.

**BPA-FREE SILICONE LID**

**DUAL-LAYER STAINLESS STEEL FILTER**

## AS FLAVOR-FRIENDLY AS IT IS ECO-FRIENDLY

Unlike single-use paper filters that strip flavor from your grounds, our stainless steel filter preserves flavor and aroma while saving trees and sparing toxic chemicals.

**PRECISION LASER CUT LAYER**

## DURABLE BY DESIGN

The carafe's tough borosilicate glass resists cracking under heavy pressure and extreme temperature changes.
